

# Hexagonal Wire Netting

## PRODUCT DESCRIPTION

Your choice of galvanised steel or the popular PVC coated netting.

Sabre Hexagonal Wire Netting is your preferred partner when it comes to bird proofing and vermin control. You'll keep these pests away from valuable crops as well as sheds and other farm buildings. Sabre Hexagonal Wire Netting is also suitable for small animal caging such as aviaries, dog runs and chicken coops, and

is used extensively as an anti-slip netting for boardwalks.

In construction, our galvanised steel hexagonal netting is perfect for concrete brick and block reinforcement (100mm and 150mm width).

And in the garden, our PVC coated hexagonal wire netting is a popular choice due to its range of mesh sizes, enhanced durability and attractive green finish.
